

You work hard. You play hard. You live life to the fullest and want gear that can keep up. That makes you just the kind of person our firearms are made for, and you can depend on them to meet every challenge you throw at them. Equally at home in a damp goose pit on a January morning as they are at a trap range on a Sunday afternoon in July, Stoeger firearms are rugged, reliable, and consistently accurate. That's just one reason so many have chosen a Stoeger shotgun or STR pistol as their primary firearm. For 2025 we are offering new hunting and tactical shotguns, as well as five new pistols in our STR lineup. No matter which Stoeger firearm you choose, you're investing in a gun that will deliver outstanding performance, dependability and value.

M-SERIES SEMI-AUTO SHOTGUNS

Where Innovation and Superb Performance Meet

Armed with ideas and suggestions from experienced hunters and shooters, Stoeger turned its innovative engineers loose with a lofty assignment: turn an already great Stoeger shotgun platform into an excellent birdslaying, clays-smashing machine. They succeeded, and the M-Series is the result. These guns have super-sleek profiles, thanks to enhanced ergonomics that make them shoulder and point instinctively. Larger bolt handles, bolt-release buttons and safeties make for easier operation in cold weather when wearing gloves. Beveled ports make fast reloads a snap. Thinner grip areas and redesigned forends ensure a firm grip and positive control in any weather. Removable cheek pieces make shooting more comfortable, and improved recoil pads team with the proven Inertia Driven® system to soak up felt recoil when shooting even the stoutest loads. If you're ready to step up your shooting experience without emptying your bank account, pick up a Stoeger M-Series shotgun today.

Model 3020

MODEL 3020 – 20-GA, 3" ITEM # 36007 Black synthetic

INERTIA DRIVEN® SYSTEM

The Inertia Driven* system used in the Model 3000, Model 3500 and Model 3020 is superior to any other operating system. The rotating bolt head ensures a positive steel-to-steel lockup that provides Stoeger semi-autos with superior strength and reliability.

Near the end of the recoil cycle, chamber pressure drops to a safe level and the gun's rearward motion slows. The heavy inertia spring then thrusts the bolt assembly rearward, unlocking the rotating bolt head, extracting the spent shell from the chamber, and pulling it against the ejector.

Magnum performance and reliability

MAX-7

ITEM # 36049 Realtree® Max-7™, Cerakote Burnt Bronze

Stoeger's Inertia Driven® Model 3500 is chambered for 3½-inch magnum shells, but also cycles 2¾- and 3-inch shells equally well without adjustment, providing versatility at an affordable price.

The Model 3500 comes with a recoil reducer that is a standard item with purchase. The buttstock incorporates a cut cavity that facilitates easy installation of the recoil reducer.

MODEL 3500 - 12-GA, 31/2"

ITEM # 36005 Mossy Oak® Bottomland™

The Model 3500 comes with four choke tubes (IC, M, F, XFT) that run from improved cylinder to extra-full turkey.

WEAVER SCOPE BASE

StoegerIndustries.com

Stoeger's Freedom Series Snow Goose shotgun combines the solid operating system of the M3500 with select U.S. manufactured components. The result is the outstanding, all-weather, extended-capacity M3500 Snow Goose shotgun in a 922R-compliant performance configuration.

Built on the foundation of Stoeger's rugged and reliable Inertia Driven® Model 3500 Waterfowl Special shotgun, the Snow Goose is optimized for high-volume shooting in extreme weather. Oversized controls aid operation with gloved hands. The easy-to-see front sight stands out in low light. Distressed-white weather-resistant Cerakote finish blends in with winter environments. Chambered for 3½-inch magnum shells, it cycles 2¾- and 3-inch shells equally well, and a 10+1 capacity helps you engage big flocks and shoot more between reloads. Comes with five chokes and a paracord sling.

STANDARD FEATURES

The M3020 Upland Special incorporates a red-bar fiber-optic front sight for quick and easy sighting, even in low-light conditions.

A chrome-lined, ventilated rib barrel with a red-bar front sight and a screw-in modified choke comes standard on the P3500.

The rotating bolt head ensures a positive steel-to-steel lockup that provides the Stoeger pump with strength and reliability.

The P3500 and it's stablemate the P3000, is packed full of features such as a chrome-lined barrel, dual-action bars and a rotating bolt head, to name a few, and is chambered to deftly handle up to 3½" magnum loads. It's ergonomic styling with sleek, thin forend profile makes for a pleasingly smooth swing and instinctive pointing. The rock-solid P3500 pump gun also comes in at a price that will make even the most budget-conscious hunter smile.

STANDARD FEATURES

CHOKE TUBES: M and wrench.
FINISHES: Realtree® Max-7,™ Black synthetic.
SIGHTS: Red-bar front sight.

A precision-machined, anodized aluminum receiver and an easily accessible cross-bolt safety speak to the practical, well-designed, quality craftsmanship found in the P3500.

The dual action bars of the P3500 provide smooth, solid, reliable operation of the pump-action. The twin parallel steel bars evenly distribute the force used to manipulate the manual action, preventing twisting and binding from occurring during ejection of a discharged shotshell and the loading of a new round into the chamber.

P3000 Pump

Durable dependability that doesn't break the bank

Stoeger's P3000 sets the standard for dependability at a wallet-friendly price. This no-nonsense shotgun from Stoeger will reliably handle 12-gauge 3" magnums loads.

The Stoeger P3000 pump-action shotgun sports a precision-machined, anodized aluminum receiver and an easily accessible cross-bolt safety found at the rear of the trigger guard.

P3000 PUMP SHOTGUN

STANDARD FEATURES CHOKE TUBES: M and wrench.	ITEM Number	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP

The Uplander Compact model is an excellent choice for beginner shooters and small-statured adults. The short stock allows the opportunity for more hunters and shooters to enjoy the history and style of the classic side-by-side design.

All of Stoeger's Uplander side-by-side models come standard with extractors.

Uplanders feature a tang-mounted safety, which is automatically engaged when the gun is broken open.

The receiver is precision-machined to exacting tolerances to ensure the Uplander will hold up year-after-year.

The 31894FS Freedom Series Supreme shotguns are equipped with telescoping, six-position rear stocks that offer 3.75 inches of length adjustment for optimal fit.

A ghost-ring sight promotes fast target acquisition and the extended magazine holds seven shells. An integrated sling attachment point is located under the magazine tube. Folding stocks allow for compact storage and transport. The stock also features an adjustable cheek rest and a soft recoil pad for shooting comfort.

P3000 Freedom Series Supreme

The shotgun you'll be proud to keep and bear

The pump-action shotgun has been THE firearm most recommended for personal defense for more than a century, and there's not one model better suited to the task that our P3000 Freedom Series Supreme. It's outfitted with a new tactical stock and forend that have M-Lok and QD points for attaching accessories. The other model comes with a telescoping/folding stock. Both have an optic cut in the receiver, and two plates for RMR and Burris optics options are included. An enlarged loading port makes feeding the 7-round extended magazine tube easier. The 18.5-inch barrel is optimal for maneuvering in close quarters, and it's fitted with a breaching choke. When it comes to defending your family and your home or business,

STANDARD FEATURES

CHOKE TUBES: Fixed cylinder. FINISH: Black Synthetic & Black Synthetic/OD Green Cerakote receiver. SIGHTS: Ghost-ring sight.

Ever since our STR striker-fired semi-automatic pistol was first introduced in 2019, it's been praised by our customers and the shooting industry alike as the perfect blend of reliability, durability, affordability, and performance. In fact, the STR has been so popular that we've been able to expand the line to include new calibers, new sizes and configurations, and now even new colors. New to the line in 2025 is the STR-9MC Micro Compact 9 mm pistol in your choice of Northern Lights or Midnight Bronze Cerakote finish. Also new is the STR-9 Thinline, a sleek, compact EDC pistol that's only an inch wide and sports a longer grip to accommodate shooters with larger hands. And be sure to check out our new STR Combat SX, a feature-packed tactical performer that's sure to impress. We're confident you'll find a STR pistol that will meet your needs and exceed your expectations in 2025.

Easy to carry, a joy to shoot. Concealment has never been a problem with micro-compact pistols, but shooting them has for men and women with larger hands - until now. Introducing the STR-9 Thinline - a semiautomatic pistol optimized for concealed carry. It's only an inch wide, and a slightly longer grip teams with the magazine extension to create a solid rest for your little finger. There's an optic cut where you can add optics, and compensator cuts in the slide reduce muzzle flip. Comes with a 14- and 16-rd. magazine.

TRIGGER SAFETY
CABLE LOCK: Included with every pistol for safe storage.

STR models (except optic ready) have a feature that lets you check by touch if a round is chambered. A small indicator atop the receiver raises to confirm the presence of a chambered round. It stays flat when the chamber is empty.

The STR Compact three-dot sight system has snag-resistant edges to ensure smooth draws and holstering.

STR COMPACT PISTOL

ITEM Number	CALIBER	GUN Size	BARREL LENGTH	FINISH	SIGHTS	OPTIC Ready	THREADED Barrel	MAG Capacity	MAGAZINES	BACKSTRAPS	MSRP

Dependable EDC With Practical Style

Delivering the reliability and accuracy expected in a full-size pistol with the handling and carry attributes of smaller handgun, the STR Mid-Size hits the perfect note. With up to 15+1 cartridge capacity and interchangeable backstraps for a custom fit, the mid-sized handgun allows for exceptional ergonomics to match a broad range of shooter sizes. The STR Mid-Size is offered in seven models: OD Green, FDE Distressed, and Tungsten Cerakote featuring Meprolight's Hyperbright sight system.

STANDARD FEATURES

ACTION: Striker-fired.
TRIGGER SAFETY
CABLE LOCK: Included with every pistol for safe storage.

Meet the Stoeger Power Team

Designed for hard use and built to satisfy the highest expectations, Stoeger's STR Full-Size handguns are the optimal choice for medium-to large-hand shooters looking for maximum dependability and ample onboard round count. Featuring a nitride-hardened slide, a high-retention/customizable grip and a light/laser rail, the STR Full-Size is an ideal choice for defensive work or competition. With several model configurations available, including the all-new STR-45 in .45 ACP and the STR Full-Size series has a model for every mission at a price well below its performance capabilities.

STANDARD FEATURES

ACTION: Striker-fired. TRIGGER SAFETY CABLE LOCK: Included with every pistol for safe storage.
